## Industry-Leading Features OVERVIEW:

- DIE CAST Body with Heavy Die Cast chassis for max. tractive effort
- Features the **ALL-NEW Paragon3 with Rolling Thunder™ SOUND & Control System (Rolling Thunder™ transmitter onboard)**
- Integral DCC Decoder with Back EMF for Industry Best Slow Speed Operation in DC and DCC
- Precision Drive Mechanism engineered for continuous heavy load towing and smooth slow speed operation
- Powerful Can Motor
- Synchronized PUFFING SMOKE with Chuff Sound
- Variable Puffing Smoke Intensity and timing
- Premium Caliber Painting with Authentic Paint Schemes
- Prototypical Light Operation with Golden White LED Headlight, Rear Light
- Operating Metal Knuckle Couplers
- Factory Installed Engineer and Fireman Figures
- Separately Applied Handrails, Ladders, Whistle, and Brass Bell
- Near-Brass Caliber Detail at a Die Cast price
- Will Operate on Code 70, 83, and 100 rail
- Minimum radius: **18" radius or greater recommended.**

## Industry-Leading SOUND / OPERATION Features:

- Operates in DC & DCC (use DCMaster for DC sound)
- 2 Selectable Bells
- 3 playable whistles with variable endings
- 1 long, non-looped whistle
- 1 alternate whistle for locomotives with a second horn
- Quill whistle with Digitrax DT400 or NCE Pro Cab throttle
- 4 Times Expanded Autopilot storage
- Expanded Startup and Shutdown sequences
- Smoke Temperature safety cutoff sensor
- 2 Watt Audio output
- 90 db signal to noise ratio
- 16 bit audio resolution
- 24 sounds with separate volume control
- Unmatched frequency response as low as 20 Hz when paired with Rolling Thunder™ subwoofer kit
- 8 simultaneously playable audio channels
- Functional Dynamic Brake with Grid Blower sounds
- Improved motor control in DC and DCC
- Motor short circuit protection
- Outputs for headlights, MARS lights, automatic cab light, rear lights, marker lights, ditch lights, firebox light, running board lights, number board lights and a few spares.
- Works with NMRA standard DCC controllers
- Automatic Dual Mode: Works with DC power packs or DCC

# Operating Water Tower

MOTORIZED FILL SPOUT +  
SOUND EFFECTS!

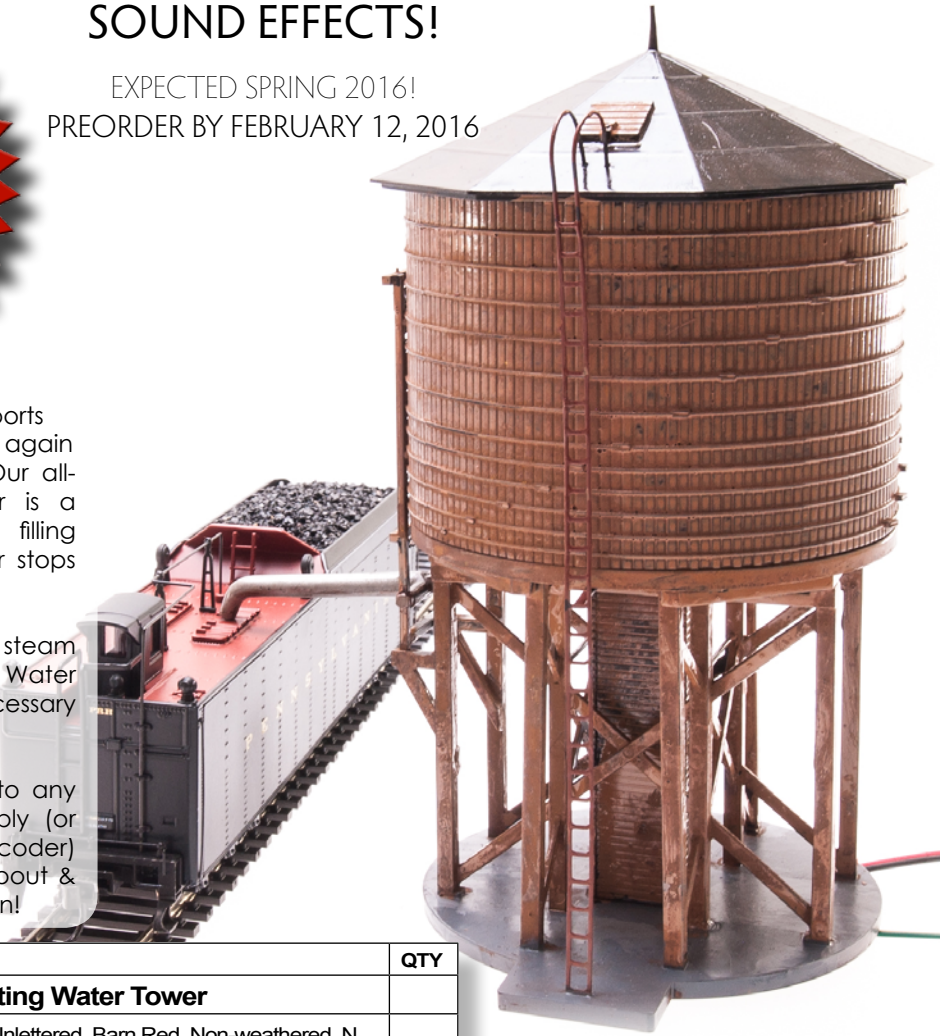

EXPECTED SPRING 2016!  
PREORDER BY FEBRUARY 12, 2016

**MOTORIZED  
& WITH  
SOUND!**

**B**roadway Limited Imports is proud to once again pioneer sound in N! Our all-new Operating Water Tower is a faithful reproduction of the filling stations found on many water stops on America's railroads.

Water was an essential part of steam locomotive operation, so the Water Tower is a prototypically necessary addition to any steam route!

Just attach the Water Tower to any standard 12V DC power supply (or stationary accessory DCC Decoder) and activate the motorized spout & sounds with the push of a button!

Hand painted "weathered brown" preproduction sample shown in HO for reference. Tender not included.

**MSRP: \$99**  
Discount Structure: **Paragon**

**6-Pack MSRP: 159.99**

## N&W 3-Bay Hopper, HO

PERFECT TO RUN WITH N&W CLASS A + N&W Y6b.

On the N&W, 3-Bay hoppers were the most common type of freight cars on their roster – about a 4-to-1 ratio of hopper cars over all other cars combined. The H2a was the most common type and was numbered from 15,500 – 25,499; 26,000 – 26,999; 28,500 – 29,999; and 31,000 – 31,999. That's one impressive class! N&W also leased these hopper cars to the PRR and B&O where they were painted in their respective schemes. BLI offers these hoppers also. The Roanoke Shops built 13,500 H2a hoppers between 1948 – 1956 and approximately 2,000 were leased to the Pennsy.

### Industry-Leading Features OVERVIEW:

- Beautifully Detailed and Accurately Modeled
- Precision Paint, Color, and Lettering Schemes
- Many Separately Applied Details including Hand Rails
- Detailed Bay Interiors
- Coal loads included
- Detailed Underbody & Brake System
- **Composition:** ABS
- **Wheel Composition:** Metal
- **Couplers:** (2) Operating Kadee® Compatible
- **Compatible Tracks:** Code 70, 83, 100 Rail
- Recommended Minimum Radius: 18 in
